## ORANGE COUNTY AMATEUR RADIO CLUB

VOL. XXV No. 8

P.O. BOX 95, ORANGE, CALIF. 92668

August 1984

### \*\*\*\*\*AUGUST PROGRAM\*\*\*\*\*

We are indeed fortunate! Chip Margelli, K7JA, V.P. of Yaesu Electronics Corp. New Products Division will be our featured speaker. If you've ever wondered what it takes to get all that stuff squeezed into the "little black box" sitting on your desk doing its stuff, come to our program. Even if you're not a ham but just interested in electronics, it will be an eye opener. In addition to a very interesting film, he's going to bring some of the new Yaesu products for you to "drool over."

### \*\*\*\*\*FAMILY PICNIC\*\*\*\*\*

Mark Sunday, August 19, on your calendar. At 10 A.M. at Doheny State Beach we are going to gather for fun and games time. This will be a family affair so come one, come all!!!! Bring your own food and drinks. Further information will be given out at the regular meeting. If you cannot make the meeting you are cordially invited anyway...phone 531-6245 or talk-in on 146.55.

### \*\*\*\*\*SEPTEMBER PROGRAM\*\*\*\*\*

September 21 is our annual club auction. Remember one man's junque (high-priced junk) is another man's treasure. Anyhow, it's good for the club because we get a small percentage of the total price of the article and have a heck of a lot of fun to boot. Spread the word so that we have a good turnout for this meeting...Some of the XYL's are going to bowl instead of bid.

\*\*\*\*\*THE PREZ SAYS\*\*\*\*\*

This month's copy of the RF is being sent to a number of potential hams who signed up at the Orange County Fair. I'd like to extend an invitation to them to attend one of our club meetings. Our meetings are open to anyone interested in amateur radio or electronics. Each meeting we have an interesting program, refreshments, and door prizes.

For those interested in becoming a ham, or upgrading, I am planning on conducting a class for novice, technician, and general class licenses starting in mid November for ten weeks. Tentatively, classes will be held on Saturday mornings with additional code practice sessions on Wednesday nights. Students will need a copy of the ARRL License Manual @ \$7.95 and a set of Ameco code tapes (3-15 WPM) @ \$6.00 approximately. I need to work out some details on this, but I'll take sign-ups starting October 1st. Call Al W6IBR anytime (531-6245) or me KA6IMP after 5 P.M. (661-3911 room 4).

Best wishes to Wyatt WA6BPX for a speedy recovery from knee surgery two weeks ago.

I was saddened to hear that Ted Glick K6LJA's wife passed away last week after a long illness. In the name of the club I extend our deepest sympathies to the Glick family.

See you at the meeting and don't forget about the annual club auction at September's meeting.

\*\*\*\*\*FOR SALE\*\*\*\*\*

NOVICES!!!! Go on the air for \$200.00 with a Collins 75-S-1 receiver and Hallicrafters HT-37 transmitter. Call Bob Evans (714) 543-9111.

August 1984

\*\*\*\*\*OCARC Board Meeting\*\*\*\*\*

August 5, 1984

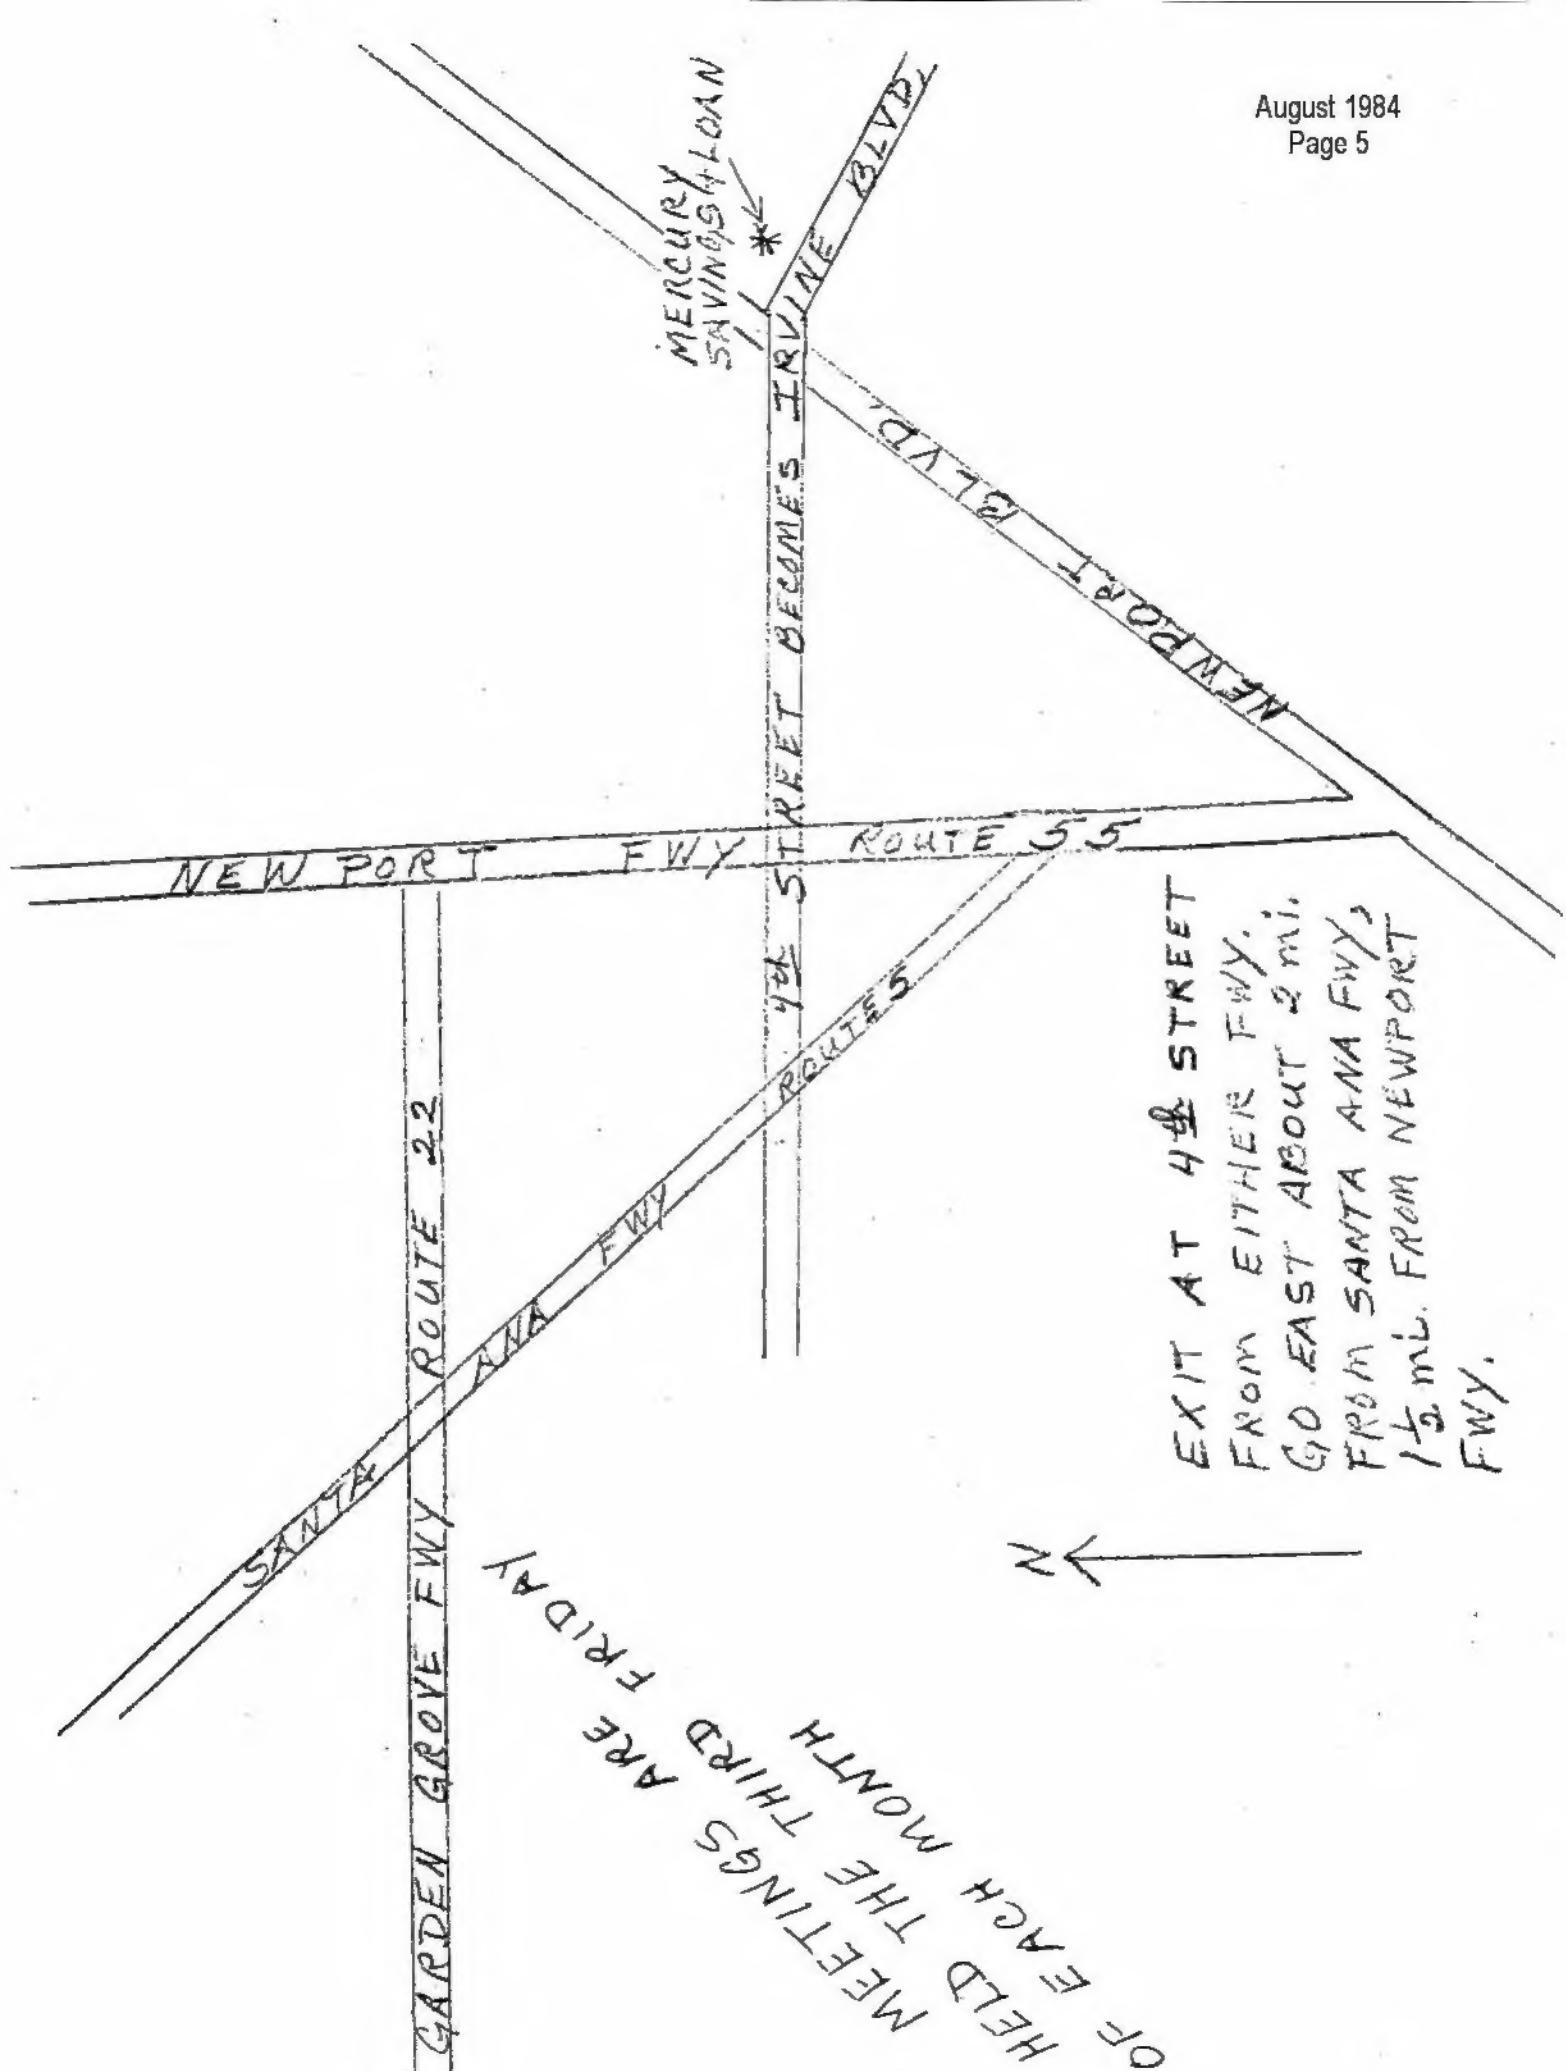

- Present Chris Breller KA6IMP; Dorothy Watts W6IBP; Al Watts W6IBR; Keith Southworth WB6LAR; Ken Konechy W6HHC.
- Tentative plans for Novice/Tech/General classes to begin mid-November. Will firm up reservations at Red Cross Headquarters.
- List of over 170 names for new students were obtained as a result of our display at the Orange County Fair. We will be sending a copy of the RF to the names on that list. A map to be included in the RF.
- The auction is planned for September meeting. Flyers to be prepared and sent out prior to the meeting.

\*\*\*\*\*ORANGE COUNTY FAIR\*\*\*\*\*

The Fair booth was very successful. Not only did we get a record number of names of future hams, but we took second prize. If you heard that we lost out to a jackass, it's true. He's a cute little burro named Burrito. The only problem was that he was in the wrong class. I'm not sure which way to take that, so you'll have to figure it out.

\*\*\*\*\*NOTES\*\*\*\*\*

I have heard that some of our members are getting off a fishing boat and coming right to our picnic. Shall we insist that they go swimming, or shall we just keep them downwind?
